

PAGE, GGGI & UNEP: WORKING TOGETHER FOR COUNTRY RESULTS

Thursday, 8 September, 2016, 16:15-17:30 - Room 401 A & B
Global Green Growth Week 2016 (GGGW 2016)
International Convention Center Jeju
Jeju Island, Republic of Korea

EVENT SUMMARY

The [Partnership for Action on Green Economy \(PAGE\)](#), the [Global Green Growth Institute \(GGGI\)](#) and the [United Nations Environment Programme \(UNEP\)](#) are supporting countries such as Colombia, Mongolia and Peru, in their national agendas for greener and more inclusive economies by bringing together their complementary expertise.

This side event aims to showcase the strength of the partnership among PAGE, GGGI and UNEP for inclusive green economy delivery at national level, discuss lessons learned from the experiences so far, and explore how the partnerships can be improved and scaled up. It will raise awareness about the role that greening the economy can play in achieving the 2030 Agenda for Sustainable Development, including the SDGs, and advancing the Paris Agreement on Climate Change.
