PAGE MINISTERIAL CONFERENCE 2017

Inclusive and Sustainable Economies
Powering the Sustainable Development Goals

27-28 March - Berlin, Germany - Hotel Scandic Berlin Potsdamer Platz
PAGE Ministerial Conference 2017

The global community has drawn a plan of action for people, the planet and prosperity. Achieving the Sustainable Development Goals (SDGs) and laying a foundation for addressing climate change within the 2015-2030 window of opportunity is both imperative and historic.

Ministers, heads of UN Agencies, business and thought leaders, representatives from civil society and development partners will gather in Berlin on 27-28 March 2017 for the second Ministerial Conference of the Partnership for Action on Green Economy (PAGE) to explore how our investments, lifestyles and growth patterns can be “enablers” for the SDGs and the Paris Agreement.

What are the necessary ingredients for the transformational change required to deliver prosperity for all on a healthy planet?

Countries and businesses are coming to the unprecedented realization that this transformation can be achieved by aligning financial flows with decarbonisation, enabling consumers to choose healthy, low-carbon, sustainable lifestyles, and empowering the poor through access to education, jobs and healthcare.

The PAGE Ministerial Conference aims to accelerate these required shifts by widening existing partnerships and initiatives to build inclusive green economies.
